

## HUDSON EARNS YEAR'S SALARY

By His Part in Surmounting Difficulties of Bringing Barth Company Here Which is Now Assured By Paying Over \$25,000 Loan.

The Chamber of Commerce through Secretary Hudson and Judge Fowler completed its contract with L. Barth & Son in New York city on Thursday by paying over the \$25,000 loan agreed upon and the last shadow of doubt has been removed from the transaction. The Barth concern has been for several weeks in possession of the plant purchased by it from E. B. Caldwell and is engaged in rushing work preliminary to getting the factory in operation. Hotel supplies, principally hardware, will be manufactured in the Kingston plant and Mr. Barth has assured The Freeman that a large number of men will be employed.

In securing the location of the Barth plant in this city the Chamber of Commerce has effectively answered the, to some extent, justifiable criticism that too little was being done to provide for the employment of male labor in Kingston.

Secretary Hudson, who has worked very hard in this matter and been under a great weight of anxiety, remained out of town for a few days of needed and well earned rest. Judge Fowler returned to Kingston after completing the transaction. To a Freeman reporter this morning that too much credit could not be given to Secretary Hudson for the work he had done in the Barth matter. Without his persistent work under great difficulties it is probable that the arrangement to bring the Barth plant here would not have been consummated. Mr. Hudson has earned, far more than a year's salary by doing this one piece of work and the Chamber of Commerce has justified its existence by its success in bringing the Barth plant here and would deserve increased support if it had not done anything else and did not do anything else in the next year.

## PARKERS MUST BEWARE OF LAW

Policeman Martin got busy Thursday afternoon and made four arrests for violation of the parking ordinance. Two were later discharged in police court, one forfeited a \$5 cash bail, and the other case was held open until later in the day. Judge Schrick issued a warning that no more leniency could be expected as the parking ordinance had been in force over a year and that hereafter all found guilty would be subject to a fine.

The four arrests were: Frank Bishop for parking on Fair street, near Main street, held open.

Max Standard for parking on North Front street, near Wall street, bail forfeited.

Alonso Rose for parking on Fair street, near John street, discharged, and C. R. Stull, for parking in the same place, discharged.

## WOODE, WON AND WED IN TEN DAYS

The marriage of Miss Fannie Rosenzweig to James Joseph MacMillan, which took place Thursday at the city hall, City Judge Harry Schrick officiating, announcement of which was made in The Freeman, was the result of love at first sight. About ten days ago Miss Rosenzweig, whose home is at Newark, N. J., while on a vacation trip on one of the day line steamboats, stopped off at Kingston and being pleased with the appearance of this city after a trip on the trolley line, decided to spend her vacation here.

On the following day, Mr. MacMillan came to Kingston on a vacation trip and also decided to spend a few days here. They both registered at the Cuneo Hotel on Broadway, met by chance, became acquainted and visited points of interest here and hereabout. It was, as stated before, a case of love at first sight, which resulted in an agreement to get married and the ceremony was performed as announced Thursday.

The bride is a handsome brunette, who has been holding a responsible position with a Newark corporation, and the groom, who was born in Glasgow, Scotland, is an officer on one of the steamers of the United Fruit Company that plies between New York and Jamaica, West Indies. They are a well appearing young couple, about 27 years of age each, and of excellent education. Mrs. MacMillan will make a trip on the steamer with her husband on their return to New York in a few days.

Mr. and Mrs. MacMillan were the first newlyweds to occupy the bridal chamber at Cuneo's with its elaborate furnishings, once owned by Anna Heid.

## MAD DOG IS HUNG AND SHOT

It was peaceful and quiet in police headquarters shortly after dinner Thursday and then the quiet was broken by the tinkle of the telephone bell and an agitated voice called for police assistance stating there was a mad dog running loose in the vicinity of No. 736 Broadway. Officers Burger and Font were detailed on the job and lost no time in making the scene in record time in the police car.

There was the dog sure enough, running about in the backyard, and as some one said "he sure does look mad." In order to avoid waiting ammunition Officer Burger who has made a study of wild west fiction suggested that he lasso the dog and it would make it easier for Officer Font to use his trusty revolver.

Officer Burger secured some rope, made a running noose and with a graceful and easy cast sailed the noose over the mad dog's head. The animal made a snap at the officer's underpinnings but successfully eluded and the noose was hauled tight.

Throwing one end over a pole in the yard the kicking and squirming dog was hoisted several feet above the ground, and then Officer Font drawing his gun took aim and with one bullet ended the career of the dog.

It will take more than a wild dog to scare Kingston's police department.

## NEW RULE BANS FACTORY BOOZE

Permits allowing industrial concerns to buy liquor for first aid stations are eliminated by the latest change in the prohibition law. Notification was received yesterday at the Albany office of Charles P. O'Connor, state prohibition enforcement officer. Under the old form of the law special permits were issued to concerns on application, whereby whiskey could be obtained and used for medicinal purposes in first aid kits. Monthly reports to the state director's office were necessary. These reports specified the amount of liquor used, and the purpose for which it was used. The new order states also that plants now having a stock of whiskey in first aid stations may use it for the purpose for which it was obtained.

## LABOR VOTE THIRD PARTY'S PROBLEM

Leaders Convened at Chicago Saturday To Pick National Ticket and Frame "Liberal" Platform—Back Favor of Gompers and His Opponents.

By Telegram to The Freeman.

Chicago, July 9.—Leaders of the new third party which is to convene here Saturday to place a national ticket in the field, on a platform termed by its backers as far more "liberal" than those of the Republican and Democratic parties, today began the task of harmonizing the various elements and factions which are to compose the party.

One of the chief problems confronting the national leaders of the committee of forty eight, who are here undertaking the preliminary work of party construction, is that of bringing the newly organized labor party into the fold. It was learned today. While the labor party, which is to convene here at the same time, is backed chiefly by John Fitzpatrick, Edward Nockels and other such leaders in opposition to the wishes of Samuel Gompers, president of the American Federation of Labor and therefore lacks the official sanction of the Federation, still it possesses considerable influence among union labor organizations and it is believed would be a welcomed acquisition to the third party ranks.

It was learned on inquiries made by the International News Service many labor unions take the position that a "third party must come to them" if there is to be a coalition and insist that the labor party aim must be carried as the title of a union so formed. When this was put up to Frank Espar, secretary of the labor party, however, he would not make a statement definitely committing the party to that position.

"We believe that a third party committee will call on us and propose a coalition," he said. "What the labor party will do will be entirely up to the vote of the delegates at the convention. As there are 1,200 delegates from every state in the union, there are likely to be many different views on the subject."

## HIGHLAND BUS IN COLLISION

One of the new Smith buses running between Highland Landing and Gardiner and between those places and New Paltz was badly damaged when coming down the hill at Ireland Corners last Sunday. Arthur McCord, homeward bound with his large car from the direction of Wallkill, arrived at the Ireland Corners junction at the same time the large bus did, and there was a collision. Mr. McCord's car landing in Abram Deyo's yard and the bus turning over on its side. The bus was carrying about a dozen passengers when the accident happened. No one in either car was seriously injured.

The bus was put entirely out of commission, being badly broken, and was taken to the shed at the hotel at Ireland Corners, many persons going there to view it. Mr. McCord's car was not badly damaged and he escaped injury. It is said neither driver heard nor saw the other car coming until it was too late to avoid a collision. Little interruption in the bus service resulted, as Smith, proprietor of the Highland garage, who conducts the line, has other cars which were put in place of the one wrecked.

## PARKING SIGNS ARE CONDEMNED

Judge Schrick Will Refuse to Impose Fine For Violations Unless Wording on Standards is Changed—Declares Them Too Ambiguous—Other Traffic Conditions.

City Judge Harry Schrick issued a statement today in which he declared that until the board of public works changes the wording on the parking signs he would refuse to hold anyone guilty who failed to comply with the parking ordinance.

The signs now read, "Parking, 1 Hour Only," and the judge claims that this is ambiguous in that it leads people, especially strangers, to believe that the time limit pertains only to that section in front of the warning signs.

A number of strangers coming in town with their automobiles pass the signs which are none too numerous or conspicuous, and unknowingly violate the parking ordinance. The judge holds that it would be unfair and unjust to fine these people in view of such circumstances. Two violators of the ordinance were discharged in police court today on these grounds.

A number of complaints have been made to the city judge relative to the number of motorists parking for more than an hour on the Fair street block from John to North Front street. The judge fully realizes that according to the ordinance limiting the time of parking these persons are violators, but he maintains that it would not be just to impose a fine when they are ignorant of the ordinance and when the signs fail to specify the territory that parking is limited. He suggests that the wording on the signs be changed to read "Parking On This Side of the Block 1 Hour Only," or words to that effect. Until this is done he will refuse to impose a penalty.

It has been noted, especially on Wall street, that the distance markers are often out of place, sometimes being from 15 to 20 feet away from the corners. This occurs frequently on Saturday night and seldom is an attempt made to replace the signs in their proper position, ten feet from the corners.

More and more is the need becoming apparent for traffic policemen on Wall street between John and North Front streets on Saturday evenings. Traffic is very much congested especially on the corners of this block and several times from serious accidents. True, a policeman is stationed part of the time on the North Front street block but when he is there the John street corner is unprotected. It seems that inasmuch as prohibition has greatly lightened the work of a police officer, that it would be well to train some of the men, if not all, for traffic duty, seeing that this in time will become a big problem in Kingston with its narrow streets.

## GRABSKY PRESENTS PLEA OF POLAND

By Telegram to The Freeman.

Spa, July 9.—A formal plea for military aid for Poland was laid before Premier Lloyd George and Premier Millerand today by Premier Grabzky of Poland.

Poland has plenty of guns, munitions and airplanes but is outnumbered by the Russians in men. Premier Grabzky told the International News Service.

"Reports regarding the situation in the east have been exaggerated," declared the Polish statesman. "We are now engaged in raising a reserve army which will go a long way towards stopping the Russian advance. We have plenty of munitions; we have the Russians beaten in airplanes and we have enough artillery, but we are outnumbered. The situation is not grave."

Premier Grabzky denied that Poland is pressing the allies for her share of indemnity.

"We consider that secondary to military aid," said the premier. "We prefer that such nations as France be compensated first."

Premier Grabzky was then asked concerning the report that Germany is arming the allies to reopen the discussions regarding the future of Danzig. He said:

"The allies will not discuss Danzig with Germany. The peace treaty settled the status of that city. Germany cannot claim a revision of the treaty on that point."

Premier Grabzky refused to reveal the nature of the aid Poland was seeking from the allies, until he had discussed it with the allied premiers.

## YE EDITOR TELLS OF HIS RAMBLES

(Continued from Thursday's Freeman.)

This was the first meeting of the N. E. A. attended by me in about fifteen years and I noticed that times had changed. In those ancient days the New York State editors filled a special car every year. This year they did not occupy so much as half a car. Possibly the abolition of the railroad pass system has had something to do with this. Twenty years ago advertising was in its infancy and it was hard to sell space. Of course, editors, no more than other people, ever got anything for nothing, and they paid their way by publishing timetables, notices of elections and the like. However, it seemed easier, and editorial traveling was encouraged. Today, when every important paper is actually obliged to refuse cash advertising to some extent, space is the same as money, but a habit once broken is not always resumed.

There is another big change I noticed. In the old days every editor drank alcoholic liquors. It was rare to find even one teetotaler in a car full. Not that editors were different from other people. Drinking was a custom which was regarded as normal. Today less than half the editors ever drink, and excess is so rare as to be remarked. At least it was so on this trip. This fact was not due to any difficulty in obtaining liquor, because that was easy. Neither had individual parsimony anything to do with it, since it was as difficult to pay for a drink as it was easy to get it. So far as I can see, we are being taxed millions to enforce a law which was not needed and which at its best could only accelerate a spontaneous change in customs.

I was in Halifax the day our Supreme Court handed down its prohibition decision. The evening newspaper gave this news just four lines under some heading like "Telegraphic Jottings," while close by was quite a spread about a big mackerel catch. But if the Canadians are indifferent to our excise law, our people feel quite an interest in the law across the border. For their information I note that in Nova Scotia it is illegal to sell liquor to inhabitants of that province, although it can be made and shipped to individuals in New Brunswick and Prince Edward Island. The law is the same in the other maritime provinces. So one province buys from its neighbor and also sells to it. The obvious result is that the saloon is eliminated while every household can keep his cellar full. Strangers like us could buy no drinks, but the natives generously gave us supplies in excess of what we desired to consume. So far as I could learn the law is enforced except in towns where there are miners and steel workers who are engaged in exhausting labor and need a drink when they quit. Nobody is willing to undertake to deprive these men. The situation is the same in Pennsylvania, where conditions are similar. In all such cases there is no great effort to discourage this technically illicit traffic.

I could not comprehend how the liquor law works in Quebec. There seems to be a combination of general statute and local regulations. In Montreal it is easy to get any kind of drink under any circumstances—at least they tell me so. I was there only a little while on Sunday morning. In Quebec, the law is the same, very strong beer is sold legally in cafes and dining rooms. One can go to a grocery store and buy a bottle of wine and carry it with him to the hotel, where they will serve it to him. At least, a waiter in the Chateau Frontenac told me so, but the hotel itself serves only beer. There seems to be little sense in the law, and they say it will be changed soon—in what respect no one predicts.

These sketches would be incomplete without mention of that wonderful man and manager, Mr. Will Wilke of the Gray Eagle, Minn. Gazette. He was the conductor of our trip and we elected him president of the association. He is not only a successful newspaper man but a prosperous banker and all around big man. In conjunction with the railroad and steamboat people he worked out every detail of the trip, and few people realize what such work means. He went over our route last winter, not acquainted with everybody, and planned the schedule. We were always on time to the minute except when an automobile accident once delayed some of our party. When we were at Kenilworth he received the news that a cyclone had killed his mother and injured several other members of his family. It hurt us nearly as much as if the catastrophe had happened to our own kin. The situation was made worse by the fact that Mr. Wilke could not leave us stranded and go home at once. Unfortunately, I was called home before the end of the trip, which extended for a week through the great province of Ontario. In concluding these sketches I hope that every reader may be able to take a similar journey and make the acquaintance of our interesting northern neighbors.

The executive committee of the Interchurch Movement has called off the campaign to raise a billion dollars after collecting \$176,000,000 at an expenditure out of all proportion to the results. The committee attributes the failure to the present public attitude toward "drives" of whatever sort. Undoubtedly the public is weary of so many after-war drives following the strain of responding patriotically during the war itself. This would be so even if there were no increased disposition to conserve one's funds in these uncertain times. Moreover, a hurried public, even where a cause may be approved in itself, is beginning to look with marked distaste upon commercialized solicitation, with paid forces of organizers, professional drivers and salaried publicity agents.

Republicans were never more firmly united than they are today. This makes victory in November certain. There is not a breath of friction, the only purpose being to elect a president and governor. No doubt is expressed as to the people being convinced that the only way by which order can be reestablished in public affairs is through the agency of the Republican party. For that reason they are united as party men and women and are not getting behind any particular individual for any nomination. Every day proves that all hands are working along the line of what is best for the Republican party. This is shown by the fact that while there are many candidates—a healthy one—the parties are thinking of the party and not the person. Of course, the Democrats are all under strain and disorganization, but at the convention all the delegates will select the

## LIEUT. HOGUE AN EXPERT AVIATOR

Incidents Now Have Chance To Go  
Up With Flyer Who Was Army  
Instructor in France And Is Now  
in U. S. Air Mail Service.

Lieut. Mark C. Hogue, a former army aviation instructor at Issoudun, France, and at present in the aerial mail service between New York and Washington, has been doing some exhibition flying over the city and surrounding country for the past few days. Lieut. Hogue is flying a Curtiss plane and although not specially adapted to "stunting" he has thrilled a number of Kingstonians with his dives and loops over the city at very low altitude. Lieut. Hogue is perhaps the most expert aviator who has visited Kingston, having been selected as an instructor overseas on account of his flying ability.

In the mail service between New York and Washington the trip is made daily no matter what the weather and often the big planes used in the service make the trip in a severe gale or drenching rain. A 400 horsepower Liberty equipped machine is used on the trip, and on one of his trips on account of the low visibility the entire trip was made at an altitude of about 200 feet, so that low flying is nothing new for Lieut. Hogue.

While in Kingston the field over the Esopus creek on the Forsyth farm is used from where trips over the city will be made at frequent intervals. In order to give persons who are employed during the day a chance to see the "Old Colonial" from the air Lieut. Hogue is making special trips from 6 until 9 o'clock each evening. He will remain in town over the week end, making flights Saturday afternoon and Sunday when undoubtedly many people will make the trip.

As he is still a pilot in the aerial mail service it is necessary for Lieut. Hogue to remain near New York city so his services may be secured when needed for the trip.

Although he is able to "stunt" for those who wish a thrill, Lieut. Hogue will carry his more timid passengers over the city and river and hills with the ease and grace which would surprise the passenger making his first trip through the air.

A number of persons were taken up last evening among them a small colored boy whom the lieutenant took for a joy ride as a mascot, flying around over the city and stunting to the delight of all, including the little passenger.

Mrs. Jennie Seaman is expected home from St. Luke's Hospital this week.

Mr. and Mrs. L. W. and family, and Mr. and Mrs. J. Rothman and family of New York spent the holidays at Mr. and Mrs. J. Foster's.

## "PERFECT 46" IS ANCIENT HISTORY

Or At Least It Will Soon Be For Lo- and Takers Chum May, New Hero, Trimmer Waist Lines, and Say Its All Due—You Have Observed It—To Prohibition.

Have you noticed a reduction in the size of the waist line of your male friends' pan—enough to, trousers?

Well if you have not, and might feel embarrassed to ask, why just don't, but there is and if you refuse to believe it ask any local tailor and he will inform you that the "perfect 46" is rapidly becoming ancient history, and that men's waist lines are becoming trimmer.

Gone are the days of the five cent schooner, the five cent trolley ride and many another things that five cents would once buy, and gone, or rather going, is the corporation that many a man used to carry around with him in the days before the eighteenth amendment to the constitution went into effect.

Alas, it is too true, the decreasing belt line is laid at the door of prohibition, and many a man who never saw how his shoes looked on his feet can now easily observe without the aid of a looking glass if he needs a shine or not.

Father's old pants which once could be made into two suits of clothes for growing Willie will now barely suffice for one suit, and it is a tight fit at that.

But the trimmer waist line is but another discomfort that has been added to the list of woes of the man who liked to visit a thirst emporium in the days when it was an emporium and not a soft drink dispensary, for when he starts to take in the slack of the once perfectly fitting pair of trousers there is so much slack that he does not know where to put it, and he has had to add a dozen new holes to the new belt that he got for Christmas in order to care for the surplus.

And the coat that once comfortably belted around his tummy now hangs in folds that billow hither and yon in the soft breezes of a July day.

It's a hard rap on the man whose wardrobe is limited and whose purse is light to face the prospect of restocking with some new duds for to add to his cup of sorrow, there has been no decrease in the price of a suit even though less material is used. Rather has the price advanced.

Still the once former "perfect 46" may find consolation in the fact that while he may not float as well in swimming as in former years, yet he will cut a somewhat better figure as he suns himself on the sandy beach.

As one former "46" remarked today: "My friends can't say when I have my picture taken that the most prominent part of me showing is my waist line."

If the tailors are to be believed, and who would doubt their word, trimmer waist lines have become the fashion, and trousers by the score are being altered to conform to their owners new measure.

## SAHLER SUMMER SCHOOL OPENING

The Dr. C. O. Sahler Summer School will have its opening session on Sunday evening at 8 o'clock. Miss Villa Faulkner Page will speak on "The Greatest Thing in the World." Miss Page needs no introduction to Kingston and is recognized everywhere as one of the greatest of teachers, lecturers and leaders in the metaphysical world.

An attractive musical program has been arranged for the evening. Miss Nell Beatrice Duff of New York City, soprano, who has been connected with the musical side of the Summer School for several years, will sing. Mrs. McClintock will be the pianist and accompanist.

The school will be in session four weeks, with a different teacher and lecturer each week. Miss Page will be in charge the first week, giving a lesson every morning at eleven o'clock, and a lecture every evening at eight, except Wednesday and Saturday. There will always be good music, also on the lecture nights, the soloists this week being Miss Duff, Mrs. McClintock and Miss Boyce, pianists. Community singing will play a large part as in the past.

Wednesday evenings will be entertainment evenings throughout the month. On Wednesday evening of this coming week Miss Edith Griffin will give some dramatic readings. Miss Duff will sing and the Misses Helen and Angela Cushman, well known little Kingston artists, will give some interpretive dances. Community singing will precede the entertainment.

All residents and visitors of Kingston will be cordially welcomed at all sessions of the Summer School, and all are without charge except the morning lessons.

The program for each week will be announced in advance.

## Save Sugar

### By serving Jiffy-Jell Real-Fruit Desserts

Jiffy-Jell desserts are rich in fruit. A bottle of condensed fruit juice comes in each package.

They are ready-sweetened and acidulated. You simply add boiling water, as directed on package, then the liquid fruit essence from the vial. Also mix in fresh fruit, if desired, and let cool. No sugar required.

Jiffy-Jell is economical. One package serves six.

It saves your sugar, for we put the sugar in it.

It is rich in fruit, for the bottle of flavor is the condensed juice of much ripe fruit.

Millions have adopted Jiffy-Jell as the ideal fruit dessert.

LIONEL BARRYMORE  
"THE COPPERHEAD"  
A PARAMOUNT-ARTCRAFT PICTURE

THEY called him "traitor," and he gloried in the shame. His cronies were those who sneered when the flag went by.

His soldier son, giving his life for the Union, left him only a message of scorn. His wife, the love of his youth, turned from him as from a thing unclean, and died without saying good-bye. The lads in the street reviled him—cheered when he went to prison.

But one day this "traitor" received a letter bearing the mark of the White House and scrawled by a big rough hand:

I alone know what you did and what you endured. I cannot reward you. Man cannot reward anything worth while. I send you the flag that flew at Vicksburg. Some day I hope to shake your hand.

Your friend,

A. LINCOLN.

That was all his regard—all he wished.

CITY OFFICERS  
RETURN HOME

State Conference of Mayors at Jamestown Was Attended by Kingstonians—Mayor Canfield Honored.

Mayor Canfield, President Rudolph C. Dittus, of the common council, and former President Samuel M. White, have returned from Jamestown, where they have been attending the eleventh annual meeting of the New York State Conference of Mayors and other city officers, which was in session Tuesday, Wednesday and Thursday.

In connection with the mayors' conference, the thirteenth annual meeting of the New York State City Clerks' Association was held at the same time and the three days' conference was devoted to special meetings of the mayors, clerks and engineers. Subjects pertaining to such office were discussed at separate conferences held during the day, and at night a general conference was held in which all the officers participated.

The subjects discussed were: central purchasing, taxation, zoning, budget systems, interest statements, assessments and equalization, bonding and pensions.

Mayor Canfield, who was one of the organizers of the State Municipal Bureau, which corresponds to a board of directors of the mayors' conference, was elected president of that bureau, in which he has been very active since its organization.

## WOODSTOCK.

Woodstock, July 9.—A beautiful and impressive service, with the pastor, J. H. Lincoln, officiating, was held in the M. E. Church on Thursday evening last. The officers of the Epworth League were duly installed, followed by a consecration service of the members of the church. It was an exceptionally good meeting and one well remembered by all present.

The Fourth of July celebration took place as usual on the lawn and grounds of the Reformed Church. A splendid crowd attended all through the day and evening. Muller's band of eight pieces was in attendance.

Rev. J. P. Nicholas, pastor of the church, gave a splendid address during the afternoon. A great sum was realized.

Every resident of the village should avail themselves of the opportunity to hear Emil Olson, the very eloquent bull ripper of Brooklyn, N. Y., who will give an evening's entertainment in the Freeborn Hall on Monday evening, July 12, under the auspices of the Woodstock Epworth League. This is to be one of the people of Woodstock, generally speaking, but Mr. Olson comes to us as a highly recommended man who we have no doubt of his being a success. The public is invited to hear Mr. Olson on Sunday morning at the service of the M. E. Church, at which time he will demonstrate his ability as a bull ripper. This service, of course, is free. He will also accompany Mr. Lincoln on the rest of his services at other points of the church. Come out and hear a good evening's entertainment and respectfully help our Woodstock Epworth League.

LEAGUE NOT  
BIGGEST ISSUE

Senator Penrose Says Wilson's League Policy is Compromising Democracy Now Rated by Tammany and Other Disreputable Elements.

By Telegram to The Freeman. Washington, July 9.—Senator Hoies Penrose declared today the nomination of Governor Cox on the Democratic ticket represented a surrender to "the corrupt and disreputable elements of the party."

Among those elements he classified Tammany Hall. He stated that while the party "was full of Wilsonism it would never lose the disreputable group attracted by Wilson."

Discussing the nomination of Cox and the question as to whether the Cox candidacy had rid the Democratic party of the burden of Wilsonism, Senator Penrose said: "I am decidedly of the opinion the nomination of Governor Cox constitutes a repudiation of the Wilson leadership in the Democratic party."

Senator Penrose was asked for his opinion on the league of nations as a campaign issue.

"It is very evident," he replied, "the league of nations is not the biggest issue in the campaign. The Democratic party by accepting the principles of reservations have compromised the position of the president, who demanded the unadulterated acceptance of the league as framed in his own egotistical imagination."

It is becoming more and more evident every day that the league of nations is not a live issue with the American people."

JEWISH TITHES  
ARE CALLED FOR

By Telegram to The Freeman. London, July 9.—A call to Jews throughout the world to pledge one-tenth of their wealth to help build up Zion as the future homeland for the Jewish race was issued today by M. Zlatopolsky, who is attending the International Zionist conference.

"Building a country where the very foundation of national assets is not yet laid involves vast expenditures of money which can never be returned," said M. Zlatopolsky. "Therefore we must come to the Jewish people and demand, as we are fully entitled by Biblical tradition, one-tenth of their wealth. It is a national duty. We must prepare a national register and enter into it all the Jews of the world giving their names, occupations and their attitude towards this Jewish revival. The task is tremendous. It would be well to found a 'initial capital society' to receive money contributed. The names of those who give will be perpetuated as keeping their ancient pledge to Zion."

REPORTS POLES  
IN BAD PLIGHT

By Telegram to The Freeman. Berlin, July 9.—Both the northern and southern banks of the Polish army have been turned by the Russians on the 400 mile battle front between the Dvina and Bug Rivers, according to a report reaching the headquarters of the Entente Mission today. The Russians are making a strong effort to get behind the main Polish army to cut off its retreat. This news was unofficial and has not been confirmed.

FINANCIAL AND  
COMMERCIAL

By Telegram to The Freeman.

New York, July 9.—There was a resumption of the upward strength in prices at the stock market opening today, initial figures showing advances of from fractions to over four points. Stomberg Carburetor was most prominent, advancing 4 1/2 to 57 1/2. International Paper was also in demand, selling up to 92 1/2. Barrett Company and Manati Sugar were other strong features, both issues making gains of around 2 points. The oil shares were in good demand. Houston Oil made a further advance of 4 points to 84. Mexican Petroleum sold up 2 points to 196 1/2. Pan-American Petroleum to 108 1/2, and Invinco Oil 1 point to 41 1/2. Steel Common was 1/4 higher at 95 1/2. Republic Steel advanced 1 point to 95 1/2. Crucible rose 1/4 to 161 and Baldwin Locomotive 1/4 to 126 1/2. Fractional improvement was noted in the motor and railroad issues.

The market continued to show a strong tone during the forenoon, many issues being in demand and making further gains of from 1 to 3 points. Profit taking sales caused reactions in a few issues. Mexican Petroleum sold up to 199 and Pan-American Petroleum to 108 1/2. Studebaker reacted 1 point to 76 1/2. United Retail stores rose nearly 2 points to 82 1/2 and gains of around 1 point were made in the other tobacco and sugar shares. Steel Common held around 95 1/2, while Baldwin Locomotive fell 1 point to 125 1/2.

The market showed an irregular tone during the afternoon, many of the active stocks receding from 1 to 2 points from the high levels, while some of the specialties made further gains.

The market closed irregular today; government bonds unchanged; railway and other bonds steady.

ODDS AND ENDS.

The Progressive Social Club will hold an important meeting at the rooms Sunday evening, and all members are urged to attend.

Tattoo Marks.

Although tattoo marks are generally asserted to be indelible if produced by the insertion of carbonaceous matter, it is said they will disappear if first well rubbed with a saline of pure acetic acid and tart, then with a solution of potash, and finally with hydrochloric acid. It would be advisable to consult a skin specialist.

Millions in Salmon.

Since the Columbia river salmon canning industry was started by pioneer fishermen in 1876 a total of 120,000,000 worth of salmon has been taken from the 20,000 acres of fishing territory in the river from Canada to the mouth of Puget Sound.

SHAPE CAMPAIGN  
FOR HARDING

By Telegram to The Freeman. Marion, O., July 9.—Conference opened today at the Harding headquarters that are expected to shape the early work of the National Republican Campaign Committee. National Chairman Will H. Hays and Henry Daugherty, pre-convention manager for Harding, came to discuss campaign matters with Senator Harding, the Republican nominee.

Colonel Dupont, national committeeman from Delaware, chairman of a special committee to arrange the notification ceremonies, is expected here to prepare plans for the reception of the Republican party leaders, who are to attend and get properly started the visiting delegations that are to inaugurate the "front porch" campaign.

Senator Albert B. Cummins, of Iowa, will arrive Saturday to present to Senator Harding campaign suggestions born of the experience had by Senator Cummins in his hard fight in Iowa for renomination for the senate. The Iowa was fought bitterly by the labor leaders because of his support of the anti-strike legislation in connection with railway employees.

General Leonard Wood, contester with Senator Harding for the Republican presidential nomination, is coming to consult with Senator Harding on methods that will insure the swinging to the Harding-Coolidge ticket of the strength developed for and by General Wood.

With these conferences concluded and the various suggestions made at them being whipped into workable shape by the experts, Hays and Daugherty, the first steps for launching the campaign will be taken following delivery by Senator Harding of his speech of acceptance on July 22.

In all these preliminaries Senator Harding is taking an active part. He is making plans to his campaign managers that he must be the dominant director of the campaign and plans matured cannot be considered perfected until they have met with his approval.

No official action can be taken on the applications for medals by the local recruiting officers. All applications must come direct to the headquarters in Albany, for approval.

**STATEMENT**  
Concerning  
**WALL STREET PUBLICITY, Inc.**  
And Its Mission.

I take pleasure in announcing that I am Local Manager for WALL STREET PUBLICITY, INC., and will represent its investment offerings in Kingston and vicinity.

A word about WALL STREET PUBLICITY, INC. Its President, Frederick Upham Adams, of New York City, needs no introduction to those familiar with finance and literature. He founded this organization for the distinct purpose of insuring the stability of industrial stock offerings.

American industry is in the market for millions of capital with which vastly to increase production and help repair the ravages of the World War. WALL STREET PUBLICITY, INC., employs a staff of financial and industrial experts which investigates the standing of corporate applicants for such capital, appraises their assets, impartially judges their claims and prospects, and approves those capable of meeting the most exacting investment tests. Only such securities should be offered to the public.

The first offering in Kingston will be a limited amount of the stock of the HOMER D. BERRY LUMBER COMPANY, an established enterprise earning large dividends. Lumber is the ideal investment. We recommend this stock. Please confer with us and let us acquaint you with the plans of WALL STREET PUBLICITY and its mission in fostering the development of American industry by winning and deserving the co-operation of the investing public.

**Short Story About Shellac.**  
Shellac is the joint product of In-  
sects and plants and comes from In-  
dia. The lac insects are about 1/25  
of an inch long, a bright red in color.  
They suck the juices of plants, di-  
gest them and exude them in the form  
of resin, which soon cures the  
whole insect. When the young insects  
have swarmed out, the resin is scraped  
from the branches, ground, washed,  
mixed with colophony and orpiment,  
cooked slowly and drawn out into the  
thin sheets we know as shellac.

**Crossed's Umbrella.**  
Defoe, it will be remembered, makes  
Robinson Crusoe describe that he  
had seen umbrellas employed in the  
Brazil and that he had constructed  
his own umbrella in imitation of them.  
"I covered it with skin," he said, "the  
hair outward, so that it cast off the  
rain like a peat house and kept off  
the sun so effectively that I could  
walk out in the hottest weather with  
greater advantage than I could before  
in the coolest."

## BROKER ATWATER JAILED AGAIN

By a decision handed down  
Thursday from the court of appeals  
of the state of New York, Morton  
Atwater, a member of the defunct  
brokerage firm of Atwater, Foote  
& Sherrill of Poughkeepsie, will be  
compelled to serve a sentence of  
six months in the Dutchess county  
jail and will probably be released  
by his attorneys on Monday next to  
commence the sentence. Atwater  
was released June 1 after a six  
months' term in the Putnam county  
jail in connection with another in-  
dultment in connection with the same  
case.

A decision reversing that of the  
appellate division which in turn  
had reversed the decision of the  
court of sessions of the supreme  
court. The decision of the court  
of appeals affirms the decision of  
the first term which in January,  
1919, found him guilty of the  
felony of larceny of \$13,250  
worth of Liberty bonds belonging  
to customers of the firm. The jury  
returned a verdict of guilty,  
and supreme court justice Sower  
imposed a sentence of six months.

He is 46 years old. He has repre-  
sented Ontario in the House of Com-  
mons since 1903, and has held the

#### TWO-ARMED VETERAN.

Certain Sam Alcorn, ex-soldier  
sent to Mandalay had the mis-  
fortune to be transported home  
on the Australian ship Francisco,  
which started March 1, 1918,  
and reached Hoboken twenty-six  
days later. From Hoboken  
he was transported to New York  
and the soldiers had to deal  
with the ship.

**Letter by Another Name.**

# THE DOWNTOWN DRY GOODS STORE

25 Broadway, Cor. Mill Street

**For Idea of It.**  
Myra had heard much about her  
city's being down on account of coffee  
tea, and appreciating the honor of  
being chosen to push her products.  
She was in front of the house she was  
quite prepared to answer to her  
husband up to his eyes, which she  
did then. "The coffee isn't out of  
tea, but my sugar it's none other  
than tea."

**Ancient Idea of Coffee.**  
Ancient people puzzled by their  
own-finding phenomena, pronounced  
that "coffee" was composed of the seed  
of a certain plant, growing in the  
city, and on coming to the service of  
God, was set on fire by his wrath.  
This interpretation of coffee, though  
contradicted by making people more re-  
ligious, was not otherwise valuable.  
By 750 A. D. a good deal was known  
about the laws governing them.

**Teaching Music to the Youth.**  
Children are now taking to the  
study of music in the home more  
eagerly than in the days of old. They  
enter in the study in connection with  
importance of early training to  
for church purposes. They are  
taught to sing in the church choir  
and are given a very thorough  
drill in solfeggio, and when ready  
at the proper time in harmony and  
music in general.
